

CANOPIES & WALKWAYS

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

Stadium Canopy

The Stadium Canopy is a cantilevered freestanding steel structure that slopes to the rear to divert rainwater into the aluminium drainage system.

The name is derived from the 'œstadium' shaped corrugated steel roof. The design utilises below-ground fixings and a branching structure to secure the canopy in 8 points.

Customisable options include:

- Powder coating in a range of RAL colours
- Bespoke sizes available on request
- Green roof options

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Durable and Low Maintenance
- Increases usability and value of a space

Ideal for:

- Business parks
- Schools/Universities
- Retail/Hospitality

Our steel structures are manufactured to BS EN 1090 standards.

Â

L: 8954mm x H: 3580mm x D: 3688mm

St Marks Pergola

The St Marks Pergola is a free-standing canopy with robust steel pillars and hardwood timber crossbeams that filter direct sunlight and provide an ambient shaded environment for an array of uses such as walkways and outdoor seating areas.

Customisable options include:

- Choice of softwood or hardwood
- Powder coating in a range of RAL colours
- Bespoke sizes available on request

Coordinated accessories such as seating, tables and ashtrays

- Can be adapted to suit other uses such as enclosed cycle parking and bin storage

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Durable and Low Maintenance
- Increases usability and value of a space

Ideal for:

- Residential
- Roof Terraces
- Business parks
- Schools/Universities

Our steel structures are manufactured to BS EN 1090 standards.

Melford Doorway Canopy

The Melford Doorway canopy is a free-standing barrel roof cantilever structure designed to offer shelter at the entrance of buildings. The traditional-looking arched roof allows for rainwater to run off into integrated guttering and drainage through the legs.

Customisable options include:

- Powder coating in a range of RAL colours
- Roof can be clad with 10mm multiwall PET or UV stable, scratch-resistant plastisol
- Bespoke sizes available on request

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Barrel roof for water run-off to integrated guttering

Ideal for:

- Entrances
- Business parks
- Schools/Universities
- Hospitals
- Retail/Hospitality

We recommend a 200-300mm gap between the building and the canopy to allow for natural movement.

All our canopies are manufactured to BS EN 1090 standards.

Benfield Canopy

Benfield is a versatile freestanding barrel roof canopy with steel beam supports and roof frame that is clad as standard with multiwall polycarbonate. A low-maintenance and durable design to create an array of shelter options for protecting customers, employees, or pupils from the weather.

Customisable options include:

- Powder coating in a range of RAL colours
- Can be clad with UV stable PET sheeting
- Bespoke sizes available on request
- Surface or subsurface mounting
- Guttering

Advantages of this design include:

- Barrel roof for water run-off
- Minimal design increases usable space beneath
- Does not require fixing to the building
- Low Maintenance

Ideal for:

- Bicycle/motorbike parking
- Car parking
- Playgrounds
- Outdoor dining
- Walkways / entrances
- Waiting areas

Our steel structures are manufactured to BS EN 1090 standards.

Columbus Canopy

Columbus Canopy is supported by a series of steel beams and is partially wall mounted, with PET roof slanting from the building and an additional roof extending outwards which diverts rainwater to integrated guttering within the legs.

Customisable options include;

- Powder coating in a range of RAL Colours
- Varying roof lengths
- Bespoke guttering options
- Leaf Guards

Advantages of this design include;

- Unique and modern look
- Reduced risk of water damage to the structure and the area below the canopy
- Creates a natural flow of air, providing ventilation and reducing the buildup of heat.
- Can be customised to fit a variety of spaces.
- Durable and long-lasting.

Ideal Canopy option for;

- Walkways
- Schools
- Shopping centres
- Healthcare institutions

All our Canopies are manufactured to BS EN 1090 Standards.
