

Arbor Canopy

The Arbor Canopy is a large cantilevered freestanding steel structure that features a curved roof that slopes to the rear to divert rainwater. The design utilises below-ground fixings and a branching structure to secure the canopy.Â

Customisable options include:

- Powder coating in a range of RAL colours
- Bespoke sizes available on request

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Durable and low maintenance
- Increases usability and value of a space

Ideal for:

- Walkways
- Business parks
- Schools/Universities
- Retail/Hospitality

Our steel structures are manufactured to BS EN 1090 standards.
