

Deacon Litter Bin

Due to its look and also its toughness and durability, the Deacon Litter Bin really is an ideal solution for waste problems in areas close to nature, as well as schools and inner cities where timber and bright colours are utilised to improve the environment. The Deacon Litter bin features a heavy timber frame, galvanised and powder coated steel door with customisable laser cut lettering and an inner galvanised steel frame to hold waste sacks.

It's available in either soft or hardwood and has a powder coating available in a range of colours on request. Customisable lettering gives the likes of schools, playgrounds and public parks the opportunity to personalise their outdoor space too, whilst it comes either surface mounted or root fixed.

L: 650mm x D: 500mm x H: 1000mm x Capacity: 100L
